

# LSEG Workspace | HERE Core

## Release Notes (Pilot)

The Release Notes document provides a summary of the features and fixes introduced in each release of Workspace for HERE Core™ (formerly the OpenFin container). The improvements that are introduced in each subsequent release of the app are intended to enhance the user experience, while addressing any issues that were discovered.

Version	LSEG supported	Description
2.44	●	<b>New</b> – System Test improvements involving the changing of URLs.

Version	LSEG supported	Description
2.5	●	<b>Internal release only</b>
2.4	●	<b>New</b> – Banner notifications now display in the user’s language.
2.3	●	<b>Technical release</b> – several back-end bug fixes and enhancements to improve quality.
2.2	●	<b>Technical release</b> – several back-end bug fixes and enhancements to improve quality.
2.1	●	<b>Fix</b> – The issue in which new Financial Charts were not loading has been resolved. As a result, Charting is now available on the platform, across all applications and widgets. <b>Fix</b> – Problems that were causing Workspace to experience a Renderer Crash have been resolved.
2.0	●	<b>New</b> – When users launch the product with no saved preferences, they are now presented with a default browser window. <b>Fix</b> – The issue causing a blank page to be displayed after login has been resolved. <b>Fix</b> – Users are now prompted to save their layouts before closing the product, to avoid losing unsaved work. <b>Fix</b> – Resolved an issue in which the Back and Forward navigation buttons were not working correctly within the main Workspace tabs.
1.6.0	●	<b>New</b> – When engaging with Support, customers are now able to upload crashes to both Production and Beta environments. <b>Fix</b> – All windows launched from within the product now correctly display the Workspace logo in the top-left of each window. <b>Fix</b> – When launching Workspace, the application now shows the correct application and in-app RIC-related information. <b>Fix</b> – Saved Workspace data is now loaded correctly after clearing the cache. <b>Fix</b> – The Advance Fillings Search app can now correctly display documents. <b>Fix</b> – The Help icon is now available on the title bar of the Workspace browser. <b>Fix</b> – A window that was maximised / minimised when exiting or signing out now displays as maximised / minimised (as appropriate) when the program is relaunched.
1.5.0	●	<b>New</b> – Customers are now able to run Workspace on their own private networks, with additional customer-managed functionality (including configurations like SSO) coming soon. <b>New</b> – There is now a new section for HERE software information in the About LSEG Workspace box. Note that this is only available for customers with the relevant toolbar, which the AppContainer will release globally soon (currently scheduled for 17 April 2024).

**Coming soon:** The following features are scheduled to be delivered:

- MacOS support
- FDC3 interoperability – colour channels
- Workspaces (replacing Tilesets)
- Excel Add-In integration
- APIs and programmatic functionality
- HERE Core UI components (Dock, Home)
