

Thomson Reuters Venture Capital Research Index Notification – July 2019

Effective close of 31st July 2019, Thomson Reuters Venture Capital Research Index carried out quarterly rebalance and changed the composition weights. According to normal process every quarter the last eight quarters of the Thomson Reuters Venture Capital Research Index are subject to quarterly retroactive revision. After close of 2019 Q2 on quarterly rebalance process Refinitiv encounter a technical failure to add new Venture Capital companies and data consolidation process also got impacted. Refinitiv team applied the permanent fix over consolidation process immediately and index committee agreed to run thirteen (instead of usual eight) quarters of the Thomson Reuters Venture Capital Research Index quarterly retroactive revision.
